### DETAILED ACTION

Claims 1-75 have been cancelled. Claims 76-89 have been newly introduced.

#### *Claim Rejections - 35 USC § 112*

Claims 81-82 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 81 is directed to further modifying the compound identified by the method of claim 76. The claim is confusing because the compound identified by the method of claim 76 is not required to bind to a face of the structure containing the second  $\beta$ -sheet of the L1 and/or L2 domains.

Claim 82 is further confusing because claim 76 does not require that the recited amino acids be present. That is, it is directed in part to embodiments where the compound binds to the structure formed by amino acids 313-621. It is unclear if the claim is intended to be limited to the embodiment where the compound binds to the structure formed by amino acids 1-475. It is unclear if claim 82 requires that the compound have enhanced binding to the particular residues recited in the claim as the limitations of this claim further define the face of the structure recited in claim 81.

Finally, it is unclear if the modification embraced by the claim is computational in nature (e.g. using the atomic coordinate model) or an actual physical modification of the compound (e.g. chemical synthesis).

***Conclusion***

Claims 76-80 and 83-89 are allowable.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
